

Rye&Lye Presents Exclusive Capsule Collection

Rye&Lye has presented an exclusive capsule collection; three unique models that feature Murano glass insert on the temples. The history of Murano glass is an artistic tradition that has represented Italian taste and refinement for centuries. Murano's master glass makers use their skill to showcase the quality, dazzling colors, purity and transparency of the glass. These characteristics have been combined with the new Rye&Lye collection. The inserts and the glass pendant are all produced by master Italian glass makers that certify their authenticity. The Torcello, Rialto and Cannaregio are three women's frames produced in a limited edition of just 600 pieces each available in exclusive packaging. The box looks like a small treasure chest containing the glasses and a leather case holding a pendant of the same Murano glass in the temple is included. Each model is offered in three color ways. www.rye-lye.it
