Acetate and metal combine in a refined blend of materials making them the star players in the latest collection from **Rye&Lye**, for sophisticated and alluring styles that are true masterpieces of Italian artistry and craftsmanship.

All Rye&Lye frames embody both the past and the future, thanks to shapes that exude sophisticated retro charm and the use of innovative materials and cutting-edge technologies, that ensure these frames are authentic design pieces, to be worn as if they were works of art.

The generous pentagonal silhouette of the women's **Angelina** frame makes a statement thanks to the originality of its workmanship, found also in the temples, where the subtle interplay of colors tends to become lighter toward the adjustable temple tips.
